This item is printed on demand - Print on Demand Neuware - Project Report from the year 2012 in the subject Business economics - Supply, Production, Logistics, grade: 100.00, - (American Public University System), course: Transportation Logistics, language: English, comment: Well written and organized paper, Ricky. I'm impressed by your understanding of these topics, and the systems thinking that you demonstrated from the outset. The economy and L&T are indeed a system that interacts together. I've snipped a few highlights from your paper below that I think demonstrates your mastery. Your critical thinking about transportation and politics was crisp and insightful. Your paper is of appropriate length and style. The figures help tell the story, and are cited. Nice touch. Well done. - ernie , abstract: This paper attempts to explain the cyclical relationship between the transportation industry and the U.S. economy. It begins by exploring the scope of logistics activities and their impact upon the economy, and then attempts to show how the economy in turn determines the state of the transportation industry and its ability to contribute to the economy. The paper will then reveal the...
