We are all microcosms of the universe. We have planetary psyches. You are a unique poem written with the letters of the astrological alphabet. You are sunshine and moonlight, mercurian wit, venusian sensuality, and marsian drive, you expand through jupiter and define through saturn, you rebel with uranus, dream with neptune, and transform with pluto. This is a collection of essays by an astrology student exploring your inner cosmos and its reflection in your external reality.
