Paperback Pages Number: 177 in Publisher: Anhui Education Press; 1st edition (June 1, 2006). With the increasing development of our GIS education GIS education. in particular. is the study of GIS for basic education. such as training objectives. curriculum. teaching mode. teaching software development. construction of teaching materials. teaching resources. as well as educational technology in teaching GIS application model and a series of questions need to be studied. At present. the domestic case studies for the construction of GIS course at a blank stage. only a small amount of GIS education issues mentioned in the individual geographic discipline construction and GIS technology and applications. but is not a study. involving the contents of very limited. Foreign GIS education is limited to institutions of higher learning GIS professional and curriculum planning. lack of case studies and analysis. GIS of basic education at home and abroad started significantly later in the professional education is now limited to the design of Teaching Practice or GIS teaching program. there is no systematic in-depth analysis of the above. Based on this. the book...
