

A Treatise on the Steam Engine Volume 20 (Paperback)

By Virginia Division of Resources

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 Excerpt: . and absorption, 12.7 per cent. At Cone 05: fire shrinkage, 7 per cent, and absorption, 4 per cent. From Wytheville to Marion the railroad follows the limestone belt, and the cuts expose residual clay. Some of these may be noted, although the extent of the deposits is not known. Rural Retreat.--Residual clay from limestone can be seen in the railroad cut one-half mile southwest of the station. SMYTH COUNTY. Groseclose.---The road cut just north of station shows shaly limestone, and there is also shale in cuts along the track, three-fourths of a mile northeast of the station, but neither of these is promising. Residual clay from limestone shows in the cut one mile northeast of station, and in another cut 1 1/2 miles from town. Marion.--The limestone belt at Marion is about 4 miles wide, and a narrower belt lies about 5 miles south of Marion,...
