

Nonlinear Science: The Challenge of Complex Systems

By Zensho Yoshida

Springer. Hardcover. Book Condition: New. Hardcover. 205 pages. Dimensions: 9.4in. x 6.2in. x 0.8in. Modern science has abstracted, as compensation for establishing rigorousness, the complexity of the real world, and has inclined toward oversimplified cititious n- ratives; as a result, a disjunction has emerged between the wisdom of science and reality. Reecting on this, we see the need for science to recover reality; can it reveal new avenues for thought and investigation of the complexity The study of science is the pursuit of clarity and distinctness. Physics, after Galilei placed it in the realm of mathematics, has been trying to establish clearness by mathematical logic. While physics and mathematics, respectively, have different intellectual incentives, they have intersected in history on countless occasions and have woven a awless system of wisdom. The core of rigorous science is always made of mathematical logic; the laws of science cannot be represented without the language of mathematics. Conversely, it is undoubtedly difcult to stimulate ma- ematical intellect without a reference to the interests of science that are directed to the real world. However, various criticisms have been raised against the discourses of sciences that explain the events of the real world as if they are...
